2. CHOOSE A WASTE KIT

KITCHEN WASTE KITS

Alveus waste kits are an integral part of every kitchen sink. Plastic parts are made of environment polymer materials, while the metal ones are stainless. Along with the appurtenant gaskets these form an effective used water drain system.

The waste kits fit to Alveus sinks and enable connection of dishwasher drain hose. The well-designed construction of Alveus wastes and waste kits allows easy cleaning and maintenance as well as better space utilisation in the sink cabinet.

- Sink bowl drains can be closed by means of plugs or pull-out stainless steel strainer basket furnished with gasket
- **Pop-up system** enables mechanical drain control by means of a button located on the sink edge

The affiliation of siphons is indicated in the charts on pages 34 to 39.

4. ACCESSORIZE!

KITCHEN ACCESSORIES

Alveus dispensers of liquid detergents enable simple assembly in the kitchen. They are suitable for installation on the sinks and in all kinds of kitchen worktops.

The use of dispenser is very simple, for by pressing its upper part by one hand a required quantity of liquid detergent or liquid soap can be hygienically and optimally applied to a washing sponge. Pull out of the upper part enables easy refill of dispenser from above.

The amount can be quickly checked due to transparent material of the dispenser container.
